

OMRON

Take Advantage of Economical Repair Services

Omron Repair Services provides a cost-effective alternative to component replacement.

The cost of doing business continues to rise. We understand that your industrial automation assets are among your most significant investments. When a new capital investment is not budgeted, or when a critical component cannot be replaced, let Omron rehabilitate or repair your damaged or failed devices for a fraction of replacement cost, regardless of the manufacturer. We are here to help, even if you don't have Omron equipment.

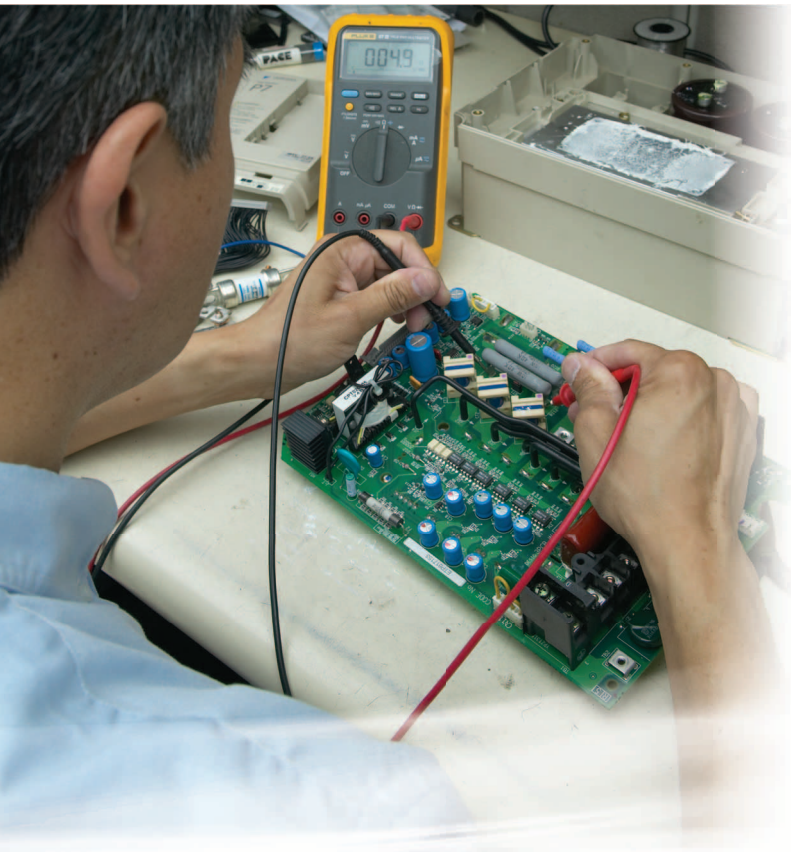

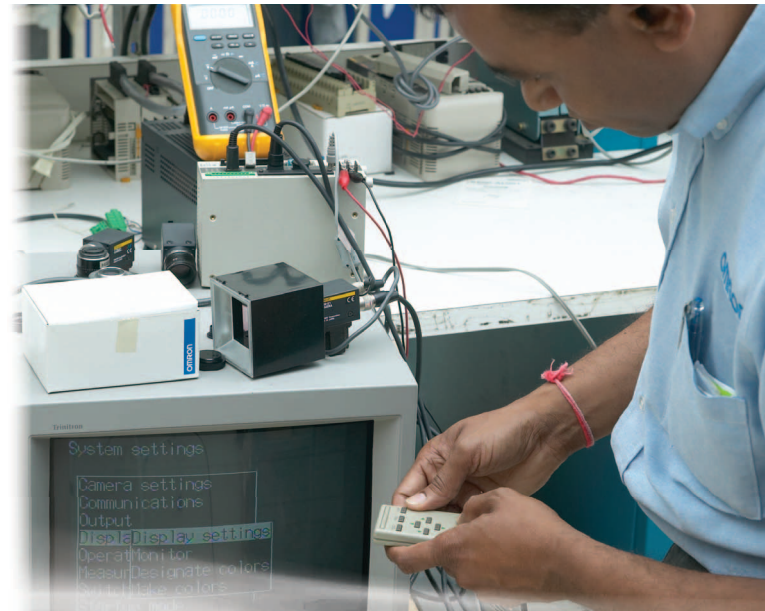

27911 Clemens Road, Westlake, Ohio 44145 • 440-808-4820

Shop Repair Services

We recognize that industrial automation components break down occasionally due to the heavy wear from daily operations. We offer quick turnaround and a generous repair exchange program to help you get your machine or line back in service:

- Free estimates of each repair.
- One year warranty on all repairs.
- Door-to-door shipping arrangements.
- Exchange inventory available for dozens of items (no core charge required).
- We can work with products from virtually any manufacturer of industrial electronics.
- We have experience with board-level repairs, including surface-mounted components.

Risk-Free Repairs

When you need a quick turnaround on a control board or other critical component, you can trust Omron with your failed equipment.

- One year warranty on your entire device, not just on the components we repair or replace.
- No repairs are performed until you approve the estimate.
- We fully inspect and clean your device.
- We replace out-of-date components in your device.
- You choose the priority for the repair (standard, rush or emergency breakdown).
- We have repaired over 250,000 devices.

Repair Process

Contact Lakewood Automation, request a Repair Description Form. Complete the form and return via fax or email. You will be given shipping instructions based on product and priority. Upon evaluation, you will be contacted with a cost for repair. Fax or email a Purchase Order and repairs will be completed.
